Five Star Reviews! Amazing Dinosaur Pictures and Facts Delivers Bigtime - I got this book to keep my 10 year old grandson occupied for a while and off the xbox or wii. Little did I know it would keep both of us occupied. I rarely see him as excited and engaged as he was turning each page and finding the next interesting fact. He is an excellent reader but he doesn't share with me after he reads a book usually. I could barely get a word in as he shared page after page. We had the longest discussion we've ever had I think. It aroused his curiosity and he started asking questions, some that we'll have to look up later. LOL I know this is one book we will read and discuss again. I highly recommend it and my grandson does too. Dinosaurs Funny & Weird Extinct Animals - AMAZING! - I'm on the edge of my seat! I'm a dinosaur lover who feels like he just watched a dinosaur movie.
